BULGARS INVADE GREECE

(Continued from Page 1.)

court, it was officially announced today.

Northwest of Solissous a French surprise attack drove the Germans from a trench on the Vlogre plateau.

A French air squadron hurled 79 bombs at the railway stations at Noyons and Tergnier. A French pilot brought down an Albatross machine near Noyons. In the same region a French squadron drove back four German biplanes attempting a raid over the French line.

In the fighting north of the Somme the French captured two more German cannon south of Guillemont, making a total of eight captured there. A number of prisoners were taken in the operations south of the river.

British Near Thiepval.
London, Aug. 22.—British troops advanced on a half mile front north of the Somme last night and established themselves at the highway junction outside Monquet farm, northwest of Pozieres. General Haig reported this afternoon that other detachments moved forward on the right to the Pozieres-Miramont road.

In the Leipzig redoubt salient, northwest of Pozieres, the British extended their gains to within one thousand yards of Thiepval, taking one hundred prisoners.

Russian Troops at Salonika.
Athens, Aug. 22.—Russian troops have landed at Salonika to join in the allied offensive. Despatches from Salonika today reported that allied transports arrived with the Russians, as the first Italian contingent was disembarking.

For the first time since the beginning of the war, the troops of six allied nations will be fighting side by side. Serbians, Montenegrins, French and British are already engaged on the Balkan front and the Italians and Russians probably will be seen in action within a short time.

Earlier in the war leading parties of Russian and Italian marines co-operated with Anglo-French infantry in occupying a small Greek fort near Salonika.

It appears probable that the Russian force landed at Salonika was transported either from Vladivostok or was composed of a small detachment from the Russian force recently landed in France. It is not likely that any large body of Russians will be transported to the Balkan front. The appearance of the Russians is probably for the purpose of demonstrating the unity of the allies.

Aviators Cripple Railway.
The Hague, Aug. 22.—Raids by allied aviators have destroyed long sections of the Bapaume-Peronne railway, considerably embarrassing the German communication behind the Somme front, it was learned here today.

French long range guns are playing havoc with the German transport service near Comblès. The highways leading into Comblès are under a steady fire, making it most difficult for the Germans to supply their forces fighting in the Clercy and Guillemont salients. The German rear lines in the rear of Comblès have suffered severely.

Russians Defeat Turks.
Petrograd, Aug. 22.—The Russians have made considerable progress in the Caucasus fighting west of Lake Van and in the eastern Euphrates valley, it was officially announced today. Many Persian irregulars were taken prisoners. The Turks were defeated in the region of Uchuu and Xalapassoca. The situation on the Austro-German front is unchanged.

Germans Abandon Salient.
Berlin, Aug. 22.—A German salient projecting into the British line between Thiepval and Pozieres was surrendered to the enemy under repeated attacks. It was officially admitted this afternoon. Elsewhere British attacks on this front were repulsed.

Northwest of Pozieres and the Fourcaux wood, enemy storming columns broke down under German fire in bitter fighting. British troops temporarily penetrated the village of Guillemont, but were driven out and the village is now firmly held by the Germans.

French attacks near Clercy and Maurepas, north of the Somme were unsuccessful. South of the Somme the Germans recaptured trenches lost in the region of Eggers and Sayevourt.

Claim Battleship Sunk.
London, Aug. 22.—The British submarine E-23 made a successful torpedo attack on a German battleship of the

Nassau class Saturday, the admiral announced this afternoon.

It is believed the battleship was sunk. She was first attacked by the submarine and damaged. Five destroyers came to her rescue and were escorting her back to harbor when the British E boat broke through their line and again defeated the battleship. There are four German battleships of the Nassau class, the Posen, Rheinland, Westfalen and Nassau. They displace 18,000 tons each and were built about nine years ago.

Each is 451 feet long, with a beam of 58 feet and carries a crew of about 900. The principal battery consists of twelve 11 inch guns.

Defeat Allies in Balkans.
Berlin, Aug. 22.—Bulgarian and German forces have defeated allied troops on both wings in the Balkans, capturing positions from both the Serbians and the French, it was officially announced this afternoon.

Serbian positions near Malka Nizceplanina were captured and the attack is progressing. The Serbs repeated their fruitless attempts to recapture Dzemant Jeri, and were driven back suffering heavy losses.

In the fighting northeast of Salonika the French were driven across the Struma river between Buthova and Tahino and the Smirzica Blatinia ridge captured.

ARCHBISHOP SPALDING ILL.

Peoria, Ill., Aug. 22.—Archbishop John Lancaster Spalding is in a serious condition as a result of the heat and general decline that became marked 10 days ago. Members of his family and the attending physician admit that they have fears for the outcome. The archbishop has been in bed for 10 days. He is 70 years old and very feeble.

\$100 Reward, \$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
